INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
North Riverside Public Library District
North Riverside, Illinois

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the North Riverside Public Library District (the "District") as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2025, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, schedule of changes in the District's net pension liability and related ratios – IMRF, and schedule of District contributions – IMRF on pages 3-8 and 32-38 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

MANAGEMENT’S DISCUSSION AND ANALYSIS

As management of the North Riverside Public Library District (the “District”) we offer readers of the District’s financial statements this narrative overview and analysis of the District’s financial performance during the fiscal year ended June 30, 2025. We encourage readers to read this information in conjunction with the District’s financial statements.

Financial Highlights

The District’s total net position at June 30, 2025 was \$3,442,221, a decrease of \$63,687 from June 30, 2024.

The District’s governmental activities had revenues of \$1,313,376 in the year ended June 30, 2025 as compared to revenues of \$1,260,085 in the prior year. The District’s governmental activities had expenses of \$1,377,063 in the year ended June 30, 2025 as compared to expenses of \$1,329,745 in the prior year. This represented an 4.23% increase in revenues and 3.56% increase in expenses.

The District implemented GASB Statement No. 101, *Compensated Absences*, during the fiscal year, which increased the amount of accrued compensated absences balances to include sick time earned and more likely than not will be used in the future in addition to vacation time earned to be used or paid out.

Overview of the Financial Statements

Management’s discussion and analysis serves as an introduction to the District’s financial statements. The basic financial statements include the Governmental Funds Balance Sheet and Statement of Net Position, Governmental Funds Revenues, Expenditures and Changes in Fund Balances and Statement of Activities, and Notes to Financial Statements. The District qualifies as a special-purpose government engaged in only one governmental type activity allowing it to combine the fund and government-wide financial statements. This is done through the use of an adjustment column, on the face of the statements, which reconciles the fund-based statements to the government-wide statements.

Government-wide Financial Statements

The Government-wide financial statements are designed to provide readers with a broad overview of the District’s finances, in a manner similar to a private-sector business.

The Statement of Net Position includes all of the District’s assets, liabilities and deferred inflows with the difference reported as net position. Increases and decreases in net position serve as a useful indicator of change in net position and whether the financial position of the District as a whole is improving or deteriorating. Non-financials factors, such as changes in the District’s property tax base and condition of the District’s buildings and equipment, should be considered regarding the overall health of the District.

The Statement of Activities reports how the District’s net position changed during the current fiscal year. All revenues and expenses are included regardless of when cash is received or paid.

Fund Financial Statements

A fund is a group of accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the District's most significant funds rather than the District as a whole. Major funds are reported separately while all other funds are combined into a single aggregated presentation.

Governmental funds are reported in the fund financial statements and encompass essentially the same functions reported as governmental activities in the government-wide financial statements. However, the focus is very different with fund statements providing a distinctive view of the District's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and the balance of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the short-term.

Both the Governmental Funds Balance Sheet and Governmental Funds Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to assist in understanding the difference between the government-wide and fund financial statements.

In addition to the basic financial statements, notes to the financial statements provide further information to the reader and should be considered an integral part of the financial statements.

Budgetary comparison schedules are also provided as required supplemental information, which is useful in comparing how District expenditures were made in comparison to budgeted amounts.

Financial Analysis

Net position may serve, over time, as a useful indicator of a District's financial position. The District's assets and deferred outflows exceeded liabilities and deferred inflows of resources by \$3,442,221 at the end of the fiscal year. Of the net position balance, \$2,113,452 is invested in capital assets, \$703,272 is restricted and \$625,497 is unrestricted net position.

Twenty-eight percent of the District’s assets at June 30, 2025, were current and consisted of cash, investments, prepaid expenses, grant receivable and property tax receivables. The remainder was noncurrent investments and capital assets. Twenty-three percent of liabilities were current and consisted of accounts payable, accrued expenses (including the current portion of compensated absences), unearned revenues and the current portions of debt certificate and lease liability. The other liabilities were the long-term portion of debt certificates and leases as well as net pension liability. Net investment in capital assets of \$2,113,452 was sixty-one percent of total net position and restricted net position of \$703,272 was twenty percent of total net position. The remaining net position was unrestricted net assets of \$625,497.

The following summarizes the revenue and expenses of the District’s governmental activities for fiscal year ended June 30, 2025. Governmental activities decreased the District’s net position by \$50,304.

Condensed Statement of Activities

	<u>July 1, 2024 to June 30, 2025</u>	<u>July 1, 2023 to June 30, 2024</u>
Revenues:		
General Revenues:

Miscellaneous	9,879	637
Total revenues	<u>1,313,376</u>	<u>1,260,085</u>
Expenses:		
Cultural	1,368,314	1,319,414
Interest of long-term debt	8,749	10,331
Total expenses	<u>1,377,063</u>	<u>1,329,745</u>
Change in net position	<u>(63,687)</u>	<u>(69,660)</u>
Net position - beginning	<u>3,505,908</u>	<u>3,575,568</u>
Net position - ending	<u>\$ 3,442,221</u>	<u>\$ 3,505,908</u>

The Statement of Activities shows the nature and source of the changes in net position. The tax levy collections, grants, and investment income increased over the prior year while fines and fees, gifts, memorials, and donations decreased over the prior year. The increase in operating expenses is primarily due to an increase in legal fees, building repairs and service contracts.

Budget

The District did not amend their budget during the fiscal year. The actual funds received for the general fund were \$1,121,732 which was \$109,383 less than budgeted. Actual expenditures for the general fund of \$1,033,505 were \$65,296 less than budgeted, due mainly to lower expenditures for books, promotional items, salaries and grants in comparison to the budget.

Financial Analysis of District's Funds

The Capital Projects Fund was created by the Board of Trustees to set aside funds for future repairs and maintenance for the District's building. During the fiscal year, the District transferred \$253,953 from the General Fund to the Capital Projects Fund. The other fund balances are nonspendable, restricted or committed for specific purposes. \$698,500 of the general fund balance is restricted for the purchase of publications and District programs, \$11,741 is committed for the summer reading program, and \$474,921 is unassigned, and can be used for any purpose.

Capital Assets

The District's investment in capital assets, net of accumulated depreciation and amortization was \$2,285,107 as of June 30, 2025. This was a decrease of \$51,658 from June 30, 2024, and was due to depreciation expense exceeding the capitalized costs of new additions in the current year.

The following summarizes capital assets.

	June 30, 2025	June 30, 2024

Additional information regarding capital assets may be found in Note 5 of the accompanying notes to the financial statements.

Debt

In February 2020, the District approved to issue general obligation debt certificates for \$472,200 to replace their HVAC system. The District only issued \$300,000 of these debt certificates and has no plans on issuing the remaining certificates. This loan has an annual interest rate of 4.10% and matures on December 1, 2029. At June 30, 2025, the note payable balance was \$163,900.

In August 2021, the District entered into a lease agreement for 3 copying machines in the amount of \$33,755. The lease is discounted at 7.00%. At June 30, 2025, the lease payable balance was \$7,755.

Additional information regarding debt can be found in Note 6 of the accompanying notes to the financial statements.

Economic Factors Bearing on the District's Future

At the time these financial statements were prepared, the District was aware of the following circumstances that could significantly affect its financial health in the future.

- Library Systems in Illinois are funded by the State of Illinois. Despite the State's financial constraints, system funds seem to be arriving in a more timely fashion. Resource sharing, delivery of materials, and continuing education continue to be the system's highest priorities for service.
- Public Library Per Capita Grants are funded through the State. The population increased to 7,426 as determined by the 2020 census will have an effect on future grants. The Library had not received the Per Capita Grant as of June 30, 2025, and it has been recorded as a receivable at year-end.
- The Library continues to pay for its HVAC renovation loan and is beginning a capital improvement plan with reserves set in place for future capital improvement needs as evidenced with the transfer from the General Fund to the Capital Projects Fund in the current year.

Requests for Information

This financial report is designed to provide a general overview of the District's finances for all those interested. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Director, North Riverside Public Library District, 2400 S. Des Plaines Ave., North Riverside, Illinois 60546.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

North Riverside Public Library District (the "District") is located in North Riverside, Illinois. The District was organized under state law to provide cultural and library services to local residents.

The accounting policies of the District conform to accounting principles generally accepted in the United States of America as applicable to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

Reporting Entity

Accounting principles generally accepted in the United States of America require that the financial reporting entity include the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature or significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Based upon these criteria, there are no agencies or entities whose financial data should be combined with and included in the financial statements of the District. Also, the District is not considered a component unit of any other government entity.

Basis of Presentation

The fund and government-wide financial statements are combined, with a reconciliation shown between them. Therefore, the Governmental Funds Balance Sheet and Statement of Net Position are combined, and the Governmental Funds Revenues, Expenditures and Changes in Fund Balances and Statement of Activities are combined. The government-wide statements are designed to report the District's financial position and results of operations as a whole. The fund financial statements are designed to demonstrate legal compliance and to aid financial management by segregating transactions by fund. Program revenues include operating grants, fines and fees.

Major individual governmental funds are reported as separate columns on the fund financial statements and all other funds are combined under a single column. The major funds are the general fund, building fund, IMRF fund and capital projects fund. Following is a brief description of the major funds used by the District.

General Fund – The general fund is the general operating fund of the District and accounts for all revenues and expenditures not encompassed within other funds. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. In addition, general operating expenditures and the capital improvement costs that are not paid through other funds are paid from this fund.

Building Fund – The building fund accounts for financial resources used to pay for building maintenance and building improvements.

NORTH RIVERSIDE PUBLIC LIBRARY DISTRICT

Notes to financial statements
JUNE 30, 2025

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

IMRF Fund – The IMRF fund accounts for financial resources used to pay for the District’s contributions to the Illinois Municipal Retirement Fund.

Capital Projects Fund – The capital projects fund accounts for special resources to be used for the acquisition or construction of capital facilities and equipment.

Basis of Accounting

The government-wide statements (Statement of Net Position and Statement of Activities) are prepared using the economic resources measurement focus and the accrual basis of accounting. Under this method of accounting, revenues are recognized when earned and expenses are recorded when liabilities are incurred without regard to receipt or disbursement of cash. Property taxes are recognized as revenue in the year in which they are intended to finance. Interfund balances between funds have been eliminated in the government-wide statements.

Governmental funds are accounted for using a current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the Balance Sheet. Operating statements of these funds present increases (i.e. revenues and other financing sources) and decreases (i.e. expenditures and other financing uses) in fund equity. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to pay current period liabilities. “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter (defined as within 60 days after the fiscal year-end) to be used to pay liabilities of the current period. Material revenues susceptible to accrual include property taxes and operating grant revenue. Expenditures are recognized when the related fund liability is incurred.

Investments

Investments are held in an Illinois Funds Money Market account and are carried at cost, which approximates market. Investments held in annuities are carried at fair value.

Capital Assets

The accounting treatment for property, plant and equipment (capital assets) depends on whether the assets are reported on the government-wide or fund financial statements.

On the government-wide financial statements capital assets are valued at historical cost, or the estimated historical cost if actual is unavailable, except for donated capital assets, which are recorded at the acquisition value at the date of donation. Depreciation of all exhaustible capital assets is recorded as a cultural expense on the Statement of Activities, with accumulated depreciation reflected on the Statement of Net Position. Depreciation is provided over the assets’ estimated useful lives using

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

the straight-line method of depreciation.

The range of estimated useful lives by type of asset is as follows:

Building and grounds	15 - 40 years
Furniture and equipment	5 - 20 years
Library collection (books and audio-visual)	15-75 years

The minimum capitalization threshold is any item with a total cost greater than \$2,000, except for purchases of books and audio visual, which are always capitalized.

On the fund financial statements, capital assets are accounted for as expenditures of the governmental fund upon acquisition.

Leases

The District has recorded right-to-use leased assets. The right to use assets amounting to \$5,000 or more are initially measured at an amount equal to the initial measurement for the related lease liability plus any lease payments made prior to the lease term, less lease incentives, and plus ancillary charges necessary to place the lease into service. The right-to-use leased assets are amortized on a straight-line basis over the life of the related lease.

Compensated Absences

GASB Statement No. 101, *Compensated Absences*, requires that liabilities be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates, and (c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. GASB Statement No. 101 establishes guidance for measuring a liability that has not been used, generally using an employee’s pay rate as of the date of the financial statements. In addition, certain salary-related payments that are directly and incrementally associated with the payments for leave should be included in the measurement of the liability.

The District’s personnel policy permits employees to accumulate earned but unused vacation and sick pay benefits on a first-in first-out basis in the governmental activities of the statement of net position. On the fund financial statements, accrued vacation and sick are recorded in the general fund when payable (i.e. upon resignation or retirement). On the government-wide financial statements, accrued vacation and sick are recorded when earned.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Deferred Outflows/Inflows of Resources

The District reports deferred outflows of resources on its Statement of Net Position. Deferred outflows of resources represent a consumption of net position that applies to future fiscal years, so will not be recognized as an outflow of resources (expenditure or expense) on the Statement of Activities until then. The District only has one item that qualifies for reporting in this category, the outflows related to the pension, which represents pension items that will be recognized in future periods.

The District also reports deferred inflows of resources on its Governmental Funds Balance Sheet and Statement of Net Position. Deferred inflows of resources represent an acquisition of net position that applies to future fiscal years, so will not be recognized as an inflow of resources (revenue or reduction of expenditure or expense) on the Governmental Funds Revenues, Expenditures and Changes in Fund Balances and Statement of Activities until then. The District has two items that qualify for reporting in this category, levied property taxes intended to finance the next fiscal year and inflows related to pensions, which will be recognized in future periods.

Property Taxes

The District annually establishes a legal right to revenue from property tax assessments upon enactment of a levy ordinance by its Board. Property taxes are recognized as a receivable at the time they are levied. Property tax revenues are recognized in the fiscal year they are intended to finance. In addition, revenue under the modified accrual basis (fund financial statements) is not recognized unless it is also available (collected within 60 days after fiscal year end). Property tax collections and property taxes receivable not recognized as revenue are reported as deferred inflows of resources. Property tax revenues on the fund financial statements are allocated to each fund in accordance with the applicable fund levy amounts.

The second installment of the 2023 levy and the first installment of the 2024 levy were intended to finance the fiscal year ended June 30, 2025. Therefore, the property taxes collected within 60 days of June 30, 2025 for these installments have been recorded as revenue, along with collections of prior levies. The second installment of the 2024 levy is intended to finance the fiscal year ending June 30, 2026. Therefore, the property taxes receivable of this levy as of June 30, 2025 has been recorded as a deferred inflow of resources.

The District recorded an allowance for uncollectible property taxes of 2.00% of the 2024 levy (\$12,574). All uncollected taxes relating to prior years' levies have been written off. Significant dates for the 2024 levy are as follows:

Lien Date	January 1, 2024
Levy Date	June 24, 2024
First Installment Due	March 4, 2025
Second Installment Due	To be determined

NORTH RIVERSIDE PUBLIC LIBRARY DISTRICT

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Property taxes are billed and collected by the Cook County, Illinois Treasurer. Property tax bills are typically mailed at least 30 days prior to due dates. Substantially all of the collected taxes for the 2024 tax levy will be received by the District between March 2025 and a date that has yet to be determined.

Elimination and Reclassifications

In the process of aggregating data for the government-wide Statement of Activities, some amounts reported as interfund activity and interfund receivables and payables on the fund financial statements may be eliminated or reclassified.

Fund Balance

Equity is classified as fund balance on the fund financial statements and displayed in five components:

- Nonspendable includes amounts not in spendable form, such as prepaid expenses or Interfund balances or amounts required to be maintained intact legally or contractually.
- Restricted includes amounts constrained for a specific purpose by external parties.
- Committed includes amounts constrained for a specific purpose by a government using its highest level of decision making authority (the Board of Trustees for the District). This formal action must occur prior to the end of the reporting period, but the amount of the committed balance may be determined in the subsequent period. Any changes to the constraints imposed require the same formal action of the Board of Trustees that originally created the commitment.
- Assigned includes general fund amounts constrained for a specific purpose by the Board of Trustees or by an official who has been delegated authority to assign amounts. The Board of Trustees has not delegated this authority as of June 30, 2025. Additionally, all remaining positive spendable amounts in government funds other than the general fund, that are neither restricted nor committed, are considered assigned. Assignments may take place after the end of the reporting period.
- Unassigned includes residual positive fund balance within the general fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those specific purposes.

In circumstances where an expenditure relates to amounts available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, followed by committed, assigned and unassigned fund balances.

Net Position

Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets and right-to-use leased assets, net of accumulated depreciation and amortization, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net

position is reported as restricted when there are limitations imposed on its use either through constitutional provisions or enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District uses restricted resources when an expense is incurred before using unrestricted resources.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2. DEFINED BENEFIT PENSION PLAN

IMRF Plan Description

The District's defined benefit pension plan for regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The District's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multiple-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Annual Comprehensive Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

Benefits Provided

Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1⅓% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011 are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1⅓% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months

within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms

As of December 31, 2024, the following employees were covered by the benefit terms:

	<u>IMRF</u>
Retirees and beneficiaries currently receiving benefits	1
Inactive plan members entitled to but not yet receiving benefits	9
Active plan members	<u>12</u>
Total	<u><u>22</u></u>

Contributions

As set by statute, the District’s regular plan members are required to contribute 4.50% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District’s annual contribution rate for calendar year 2024 was 9.97% of members’ wages. For the fiscal year ended June 30, 2025, the District contributed \$43,659 to the plan. The District also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF’s Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability

The District’s net pension liability was measured as of December 31, 2024. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The following are the methods and assumptions used to determine total pension liability at December 31, 2024:

- The Actuarial Cost Method used was Entry Age Normal.
- The Asset Valuation Method used was Market Value of Assets.
- The Inflation Rate was assumed to be 2.25%.
- Salary Increases were expected to be 2.85% to 13.75%.
- The Investment Rate of Return was assumed to be 7.25%.

NORTH RIVERSIDE PUBLIC LIBRARY DISTRICT

NOTE 2. DEFINED BENEFIT PENSION PLAN - Continued

- Projected Retirement Age was from the Experience-based Table of Rates, specific to the type of eligibility condition. Last updated for the 2023 valuation pursuant to an experience study of the period 2020-2022.
- Mortality (for non-disabled retirees) – The Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 108.0%) and Female (adjusted 106.4%) tables, and future mortality improvements projected using scale MP-2021. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2021. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2021.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long Term Expected Rate of Return
Domestic Equity	33.5%	4.35%
International Equity	18.0%	5.40%
Fixed Income	24.5%	5.20%
Real Estate	10.5%	6.40%
Alternative Investments	12.5%	4.85-6.25%
Cash Equivalents	1.0%	3.60%
	<u>100%</u>	

Changes were made to the District’s mortality and demographic assumptions during the fiscal year.

Single Discount Rate

A Single Discount Rate of 7.25% (same as previous year) was used to measure the total pension liability. The projection of cash flow used to determine the Single Discount Rate assumed that the plan members’ contributions will be made at the current contribution rate, and that employer

contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25%, the municipal bond rate is 4.08% and the resulting single discount rate is 7.25%.

NOTE 3. CASH AND INVESTMENTS

Reconciled cash and investments were as follows at June 30, 2025:

First American Bank - Maxrate public funds account	\$ 71,132
Annuities	909,538
Illinois Funds (investment pool - does not require categorization)	532,807
Total cash and investments	<u>\$ 1,513,477</u>

The District’s investment policy (the “policy”) authorizes the District to invest in obligations of the U.S. government and its agencies, interest-bearing savings account, certain short-term obligations of U.S. corporations, money market mutual funds, certificates of deposit, Illinois Public Treasurer’s Investment Pool (Illinois Funds), and other securities authorized by the Illinois Public Funds Investment Act. The District purchased four annuities with Athene Annuity and Life Company (“Athene”). These annuities are not permitted according to the District’s investment policy.

The District’s deposits and investments are subject to the following risks:

- Custodial credit risk is the risk that the District will not be able to recover its deposits with financial institutions in the event of the failure of the financial institutions. The District’s policy limits this risk by only allowing deposits in Federally Insured or Licensed Institutions Permitted to Hold Public Funds, provided that such investments shall not exceed federal insurance limits. The District’s policy limits this risk by only allowing investments in securities guaranteed by the United States government or in FDIC insured institutions.
- Credit risk is the risk that an issuer or counterparty to an investment will not fulfill its obligations, resulting in investment losses by the District. The District’s policy limits this risk by requiring uninsured investments be collateralized by securities or mortgages in an amount equal to at least fair value of the uninsured amount. The District’s annuities are not collateralized by securities or mortgages equal to the fair value of their balances. There is a risk Athene could fail and the District would not receive full value of these annuities.

NOTE 3. CASH AND INVESTMENTS – Continued

- Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District’s policy does not limit the term of investments to specific maturities.
- Concentration of credit risk is the risk of loss attributed to funds being concentrated in a limited number of investments. The District’s policy does not restrict the amount of investments in any one issue. More than 5% of the District’s investments are in annuities. The investment in annuities comprises 60% of the District’s total cash and investments at June 30, 2025.

Illinois Funds

Illinois Funds is an investment pool managed by the State of Illinois, Office of Treasurer, which allows governments within the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company but operates in a manner consistent with Rule 2(a)7 of the Investment Company Act of 1940. Illinois Funds is rated AAmmf by Fitch’s. Investments in Illinois Funds are valued at Illinois Funds’ share price, which is the price the investment could be sold. Illinois Funds issues a publicly available financial report that includes financial statements and supplementary information. That report may be obtained on-line at www.treasurer.il.gov.

The District’s deposits with financial institutions were categorized as follows at June 30, 2025:

Insured by federal depository insurance	\$	79,276
Collateralized by securities held by the pledging financial institution's trust department or agent in the District's name		-
Collateralized by securities held by the pledging financial institution's trust department or agent, but not in the District's name		-
Uncollateralized		-
Total deposits with financial institutions	\$	<u>79,276</u>

Athene has a rating of “A+” with S&P, Fitch and A.M. Best and “A1” with Moody’s as of the Independent Auditor’s Report Date. The District receives annual statements and estimated the value of these annuities based on these statements at or near June 30, 2025. The following table presents the reported values and purchase dates of the District’s investment in annuities (using the specific identification method) for the governmental funds as of June 30, 2025:

The maturity date is the earlier of the annuity maturity date or death of the annuitant. The cash surrender value is the value of the annuity if the District requests the balance prior to the annuity maturity date. In addition, after twelve years, the District is allowed to request a principal portion of the annuity without penalties being assessed. It is the District’s intent to hold the annuities until maturity date or the death of the annuitant.

Annuities #1 and #2 earnings are based on the S&P 500 Index.

Annuity #3 earnings are based on the Hang Seng, Eurostoxx 50 and S&P 500 Indexes.

Annuity #4 earnings are based on the Merrill Lynch RPM Index.

The indexes for the four annuities can be changed or adjusted on an annual basis by the District. Also, all annuities guarantee that investment returns will never be negative.

Investments are measured at fair value on a recurring basis. Recurring fair value measurements are those that Governmental Accounting Standards Board (GASB) Statements require or permit on the Statement of Net Position at the end of each reporting period. Fair value measurements are categorized based on the valuation inputs used to measure an asset’s fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The investments’ fair value measurements are as follows at June 30, 2025:

NOTE 4. RISK OF LOSS

The District is exposed to various risks of loss through property ownership, employee injury, liability of employees, actions of elected officials and other risks. The District purchased commercial insurance policies to overcome these risks. There was no significant decrease in coverage from the prior year, and claims have not exceeded coverage in the last three years.

Lease

In August 2021, the District entered into a right-to-use lease agreement for three copying machines. The monthly lease payments made during the fiscal year were \$668 per month. Beginning on July 1, 2022, the monthly lease payment became \$696 per month. The lease liability is measured at a discount rate of 7.00%. As a result of the lease, the District has recorded an intangible right-to-use lease asset amounting to \$33,755, with accumulated amortization of \$26,441 as of June 30, 2025.

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2025, were as follows:

Fiscal Year Ending	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
June 30, 2026	\$ 7,291	\$ 1,056	\$ 8,347
June 30, 2027	464	232	696
	<u>\$ 7,755</u>	<u>\$ 1,288</u>	<u>\$ 9,043</u>

Debt Certificates

General obligation (limited tax) debt certificates, series 2020 were issued in February 2020 in the amount of \$300,000. These certificates bear a fixed interest rate of 4.10%. They require semi-annual interest payments on June 1st and December 1st and annual principal payments on December 1st.

Principal payments began in December 2020 and end in December 2029. Principal payments range from \$25,700 to \$35,400. The balance at June 30, 2025 was \$163,900.

NOTE 1. BUDGETS

Budgets for funds are adopted on a basis consistent with accounting principles generally accepted in the United States of America. The following procedures are used to establish the budgets:

- (a) The District's Director submits a proposed operating budget to the Board of Trustees for approval.
- (b) The Board of Trustees makes any adjustments to the budget deemed necessary and approves the proposed budget and appropriation ordinance.
- (c) Notice is published in a newspaper that the tentative Annual Budget and Appropriation Ordinance of the District is available for inspection and then is subsequently presented at a public hearing.
- (d) The District's Board of Trustees adopts the Annual Budget and Appropriation Ordinance after the public hearing.

Expenditures may not legally exceed the budgeted appropriations at the fund level. The budget may be amended by the District's Board of Trustees. There were no amendments to the budget for the year ended June 30, 2025.

NOTE 2. EXCESS OF ACTUAL EXPENDITURES OVER BUDGET

Expenditures exceeded appropriations for the building fund in fiscal year 2025.
